RE: Letter of Intent

Mr. Michael J. Crews  
California Emergency Management Agency  
3650 Schriever Avenue  
Mather, CA 95655

Dear Mr. Crews,

The City of Roseville intends to implement VHF mutual aid channels on low-level base stations to enhance communication capabilities within Roseville during a mutual aid event. The implementation location would be at Roseville PD, 1051 Junction Boulevard in Roseville, CA. The ERP will be limited so the area of operation will not exceed Roseville's jurisdiction. Specifically, the City of Roseville would like to request the following channels:

- ♦ VCALL10
- ♦ VTAC11
- ♦ VTAC12
- ♦ VTAC13
- ♦ VTAC14
- ♦ CALAW1

In addition, the City has spoken to the Chair of the Capitol-Bay Planning Area, Kent Eldridge, and he supports Roseville's intent to expand its VHF capabilities. The City is prepared, if necessary, to present a coverage contour plot to graphically demonstrate its operation area will stay within Roseville boundaries.

Please advise of the next step to take in this process to increase interoperability with Roseville and its surrounding community.

Sincerely,

A handwritten signature in dark ink, appearing to read "D Applebaum", is written over a light blue horizontal line.

Dave Applebaum  
Telecommunications Manager  
City of Roseville
